Instructions for Using a Mini Skillet Cookie Kit

Using a mini skillet cookie kit is simple and straightforward. Follow these instructions to create your perfect mini skillet cookie.

Ingredients

Before you start, gather all the ingredients provided in the kit. You may also want to have the following items on hand:

- 1 egg (if required by the kit)
- Butter or oil (as specified in the kit)
- Mixing bowl

- Measuring spoons
- Spoon or spatula for mixing

Step-by-Step Instructions

Follow these steps to prepare your mini skillet cookie:

1. **Preheat the Oven:** Begin by preheating your oven to the temperature specified in the kit instructions, usually around 350°F (175°C).
2. **Prepare the Skillet:** If your kit includes a cast-iron skillet, make sure it is clean and lightly greased with butter or cooking spray. If using a disposable foil skillet, you can skip this step.
3. **Mix the Wet Ingredients:** In a mixing bowl, combine the wet ingredients specified in the kit, such as melted butter and egg. Stir until well combined.
4. **Add Dry Ingredients:** Gradually add the pre-measured dry ingredients from the kit to the wet mixture. Stir until no dry flour remains and the dough is smooth. Be careful not to overmix.
5. **Add Mix-ins:** Fold in the chocolate chips or any other mix-ins provided in the kit. This is where you can get creative by adding extra ingredients if you like!
6. **Transfer the Dough:** Spoon the cookie dough into the prepared mini skillet, spreading it evenly across the bottom. Keep in mind that the dough will spread while baking, so don't overcrowd the skillet.
7. **Bake:** Place the skillet in the preheated oven and bake for the time specified in the kit instructions, usually around 10-15 minutes. Keep an eye on it to ensure it doesn't overbake.
8. **Check for Doneness:** The cookie is done when the edges are golden brown and the center is slightly soft. Remember that the cookie will continue to cook a bit after being taken out of the oven.
9. **Cool and Serve:** Allow the skillet to cool for a few minutes before serving. You can enjoy it warm with a scoop of ice cream on top or let it cool completely.
