Preparing for Your Climb

Before diving into the Tower, it's essential to prepare adequately. Here are some tips to help you get ready for your adventure.

1. Gear Up Effectively

Your equipment plays a crucial role in your success. Consider the following when selecting your gear:

- Weapons: Choose weapons that match your playstyle. Ranged weapons can be beneficial for keeping enemies at bay, while melee weapons can deal significant damage up close.
- Armor: Look for armor that provides bonuses to your health, damage

reduction, and ability cooldowns.

- Artifacts: Artifacts can provide powerful boosts and abilities. Consider using a mix that complements your weapon and armor choices.

2. Choose the Right Enchantments

Enchantments can greatly enhance your gear. Prioritize the following:

- Damage Enhancements: Look for enchantments that increase damage output, such as "Critical Hit" or "Fire Aspect."
- Survivability: Enchantments like "Life Steal" or "Protective" can help you stay alive longer.
- Mobility: Enhancements that increase your movement speed or allow for quick escapes can be invaluable.

3. Assemble Your Team

If you're playing with friends, coordination is key. Consider the following team compositions:

- Balanced Team: A combination of melee, ranged, and support characters can create a well-rounded team.
- Specialized Roles: Assign roles based on your team members' strengths. For instance, one player can focus on dealing damage while another focuses on healing or crowd control.

1. Understand Enemy Patterns

Each enemy type has specific behaviors and attack patterns. Familiarize yourself with these to dodge attacks effectively and counter them.

2. Manage Resources Wisely

- Healing Items: Use healing items strategically. Avoid using them too early in a fight, but don't wait until you're on the brink of defeat.
- Artifact Cooldowns: Keep an eye on your artifact cooldowns and use them at

critical moments during boss fights or when overwhelmed by enemies.

3. Use the Environment to Your Advantage

The Tower contains various environmental elements that can be used tactically:

- Cover: Utilize walls and obstacles to shield yourself from enemy attacks.
