Getting Started

Before diving into the gameplay, it's essential to understand the basic mechanics and storyline that drive "My Brother Rabbit."

Story Overview

"My Brother Rabbit" follows the tale of a young girl who is dealing with a serious illness. Her brother, determined to help her cope, creates a fantastical world filled with vivid characters and enchanting landscapes. The game juxtaposes the harsh realities of life with the imaginative escape that a child's mind can create. As you progress, you will alternate between the real world and the whimsical world that the brother has created for his sister.

Game Mechanics

- Point-and-Click Interface: The game primarily uses a point-and-click interface, allowing players to interact with the environment, collect items, and solve puzzles.
- Inventory System: Items collected throughout the game are stored in your inventory. You can combine or use these items to solve puzzles.
- Visual Storytelling: The game relies heavily on visuals and environmental storytelling, so pay attention to the details in each scene.
