Moultrie Pro Hunter II Feeder Kit Manual

The Moultrie Pro Hunter II Feeder Kit is a sophisticated and essential tool for any serious hunter or wildlife enthusiast. This feeder kit is designed to attract and nourish deer and other wildlife, ensuring they return to your area consistently. This manual will provide a comprehensive overview of the Moultrie Pro Hunter II Feeder Kit, including its features, setup instructions, maintenance tips, and troubleshooting advice.

Key Features of the Moultrie Pro Hunter II Feeder Kit

The Moultrie Pro Hunter II Feeder Kit is loaded with features that make it stand out in the market. Some of the key features include:

- **Digital Timer:** The kit comes with a programmable digital timer that allows you to set feeding schedules accurately. You can program up to 6 feed times per day.
- **Large Capacity:** The feeder holds up to 300 lbs of feed, making it suitable for long periods between refills.
- **Adjustable Feed Rate:** Users can adjust the feed rate to dispense anywhere from 1 to 10 seconds, allowing for better control over how much feed is distributed.
- **Durable Construction:** Made from high-quality materials, the feeder is designed to withstand harsh weather conditions and prevent rusting.
- **Solar Panel Compatibility:** The feeder can be connected to a solar panel for extended battery life, allowing for more convenience and less frequent maintenance.

- Squirrel-Proof Design: The feeder features a design that deters squirrels and other nuisance animals from accessing the feed.

Setting Up the Moultrie Pro Hunter II Feeder Kit

Setting up your Moultrie Pro Hunter II Feeder Kit is a straightforward process. Follow these steps to ensure proper installation and functionality:

What You'll Need

Before you begin, gather the following items:

- Moultrie Pro Hunter II Feeder Kit
- Power drill with bits
- Screwdriver
- Level
- Feed (corn, pellets, or other wildlife feed)
- Optional: Solar panel for extended battery life

Step-by-Step Setup Instructions

1. **Select a Location:** Choose a location that is easily accessible for maintenance but away from heavy human traffic. Ideally, the area should have nearby cover for wildlife.
2. **Assemble the Feeder:** Follow the assembly instructions included with the kit. Most components should snap or screw together easily. Ensure that all parts are securely fastened.

3. **Attach the Timer:** Mount the digital timer to the feeder's housing. Refer to the manual for specific instructions on wiring and connections.
4. **Install the Feeder on a Post:** Use a power drill to secure the feeder onto a sturdy post or platform. Make sure it is at least 4-5 feet off the ground to prevent access from smaller animals.
5. **Level the Feeder:** Use a level to ensure the feeder is straight. This will help prevent feed from getting stuck or spilling.
6. **Fill the Feeder:** Once assembled and secured, fill the feeder with your chosen feed. Avoid overfilling, as this can lead to spoilage.
7. **Program the Timer:** Follow the instructions in the timer section of the manual to set the desired feeding times and duration.
8. **Optional Solar Panel Installation:** If using a solar panel, connect it according to the manufacturer's instructions.

Maintaining Your Moultrie Pro Hunter II Feeder Kit

Proper maintenance is crucial to ensure the longevity and functionality of your feeder. Here are some tips for effective maintenance:

- **Regular Cleaning:** Clean the feeder every few months to prevent mold and bacteria buildup. Use mild soap and water, and rinse thoroughly.
- **Check the Timer:** Regularly check the timer to ensure it is functioning correctly and adjust feeding schedules as needed.
- **Inspect for Damage:** Periodically inspect the feeder for any signs of wear, rust, or damage. Replace

any damaged parts immediately.

- Refill Feed: Depending on wildlife activity, refill the feeder regularly to ensure a consistent food supply.

- Winterization: If you live in an area with harsh winters, consider bringing the feeder indoors during the off-season or using a protective cover.

Troubleshooting Common Issues

Like any electronic device, the Moultrie Pro Hunter II Feeder Kit may experience issues. Below are some common problems and their solutions:

Digital Timer Not Working

- Check Batteries: Ensure that the batteries are installed correctly and are not depleted. Replace them if necessary.

- Reset Timer: Sometimes, a simple reset can resolve issues. Follow the manual instructions to reset the timer.

- Check Connections: Ensure all wires are securely connected and that there are no frayed wires.

Feeder Not Dispensing Feed

- Check Feed Type: Ensure that the feed you are using is appropriate for the feeder and is not clogged.

- Inspect Feeder Mechanism: Clear any obstructions in the dispensing mechanism.
- Adjust Feed Rate: If the feed rate is set too low, increase the duration to ensure adequate feed distribution.

Wildlife Avoiding Feeder

- Change Location: If wildlife is not visiting the feeder, consider moving it to a more frequented area.
- Attractants: Use attractants such as minerals or scents to lure wildlife to the feeder.
- Timing Adjustments: Experiment with different feeding times to see if it makes a difference in wildlife activity.
