nuphy air 75 user manual

Nuphy Air 75 User Manual

The Nuphy Air 75 is a remarkable mechanical keyboard that merges aesthetics with functionality, designed for users seeking a compact, high-performance typing experience. This user manual provides a comprehensive guide to understanding the features, setup, and operation of the Nuphy Air 75 keyboard. Whether you are a gamer, programmer, or casual user, this manual will help you navigate the various aspects of your new keyboard, ensuring you make the most out of its capabilities.

Product Overview

The Nuphy Air 75 is a wireless mechanical keyboard known for its low-profile design and versatility. It features:

- Compact Size: The 75% layout allows for efficient use of space without sacrificing essential keys.
- Mechanical Switches: Available in various switch types, catering to different tactile preferences.
- Connectivity Options: Supports both Bluetooth and USB-C wired connections for convenient usage.
- Multi-Device Pairing: Capable of connecting to up to three devices simultaneously.
- RGB Backlighting: Customizable lighting effects to enhance your typing experience and aesthetic appeal.

Getting Started

Unboxing Your Nuphy Air 75

Upon opening the box, you should find:

- The Nuphy Air 75 keyboard
- USB-C charging cable
- User manual
- Keycap puller (optional)
- Additional keycaps (if applicable)

Make sure to inspect all items for any damages that may have occurred during shipping.

Charging the Keyboard

Before using your keyboard, it is essential to charge it. Follow these steps:

1. Connect the USB-C cable to the keyboard and the other end to a USB power source.
2. The indicator light will turn red while charging and will turn off when fully charged.

The Nuphy Air 75 has a battery life of up to 48 hours, depending on usage and backlight settings.

Connecting the Keyboard

The Nuphy Air 75 can be connected via Bluetooth or USB-C. Here's how to connect using both methods:

Bluetooth Connection:

1. Power on the keyboard using the switch located on the back.
2. Press and hold the "Fn" key and any of the three Bluetooth keys (1, 2, or 3) until the indicator light starts blinking.
3. On your device, navigate to the Bluetooth settings and search for new devices.
4. Select the "Nuphy Air 75" from the list.
5. Once connected, the indicator light will stop blinking.

Wired Connection:

1. Simply connect the USB-C cable from your keyboard to your device.
2. The keyboard should be recognized automatically.

Key Features and Functions

Switch Types

The Nuphy Air 75 offers various switch options, allowing users to choose based on their typing preference:

- Gateron Low-Profile Switches: Available in different types, such as:
- Red: Linear, smooth keystrokes without tactile feedback, ideal for gaming.
- Brown: Tactile feedback, a balance between typing and gaming.
- Blue: Clicky sound and tactile bump, preferred by typists.

Customization Options

The Nuphy Air 75 supports various customization features, including:

- Key Remapping: Use the dedicated software to remap keys to your liking.
- Lighting Effects: Customize RGB lighting through the software or keyboard shortcuts.
- Macro Programming: Record and assign macros for frequently used commands.

Keyboard Shortcuts

Utilize the following keyboard shortcuts for enhanced functionality:

- Brightness Control: Press "Fn" + "↑" or "↓" to adjust the backlight brightness.
- Lighting Effects: Press "Fn" + "L" to toggle through different RGB effects.
- Device Switching: Press the corresponding Bluetooth key (1, 2, or 3) to switch between paired devices.

Maintenance and Care

To ensure the longevity of your Nuphy Air 75 keyboard, follow these maintenance tips:

- Regular Cleaning: Use a soft, lint-free cloth to clean the keyboard. A keycap puller can help remove keycaps for deeper cleaning.
- Avoid Liquid Spills: Keep beverages away from your keyboard to prevent accidental spills.
- Safe Storage: When not in use, store the keyboard in a safe place to avoid physical damage.

Troubleshooting Common Issues

If you encounter issues with your Nuphy Air 75, refer to the following troubleshooting tips:

1. Keyboard Not Connecting:
- Ensure the keyboard is powered on.
- Check if the keyboard is in pairing mode (indicator light should be blinking).
- Restart the device you are trying to connect to.

2. Keys Not Responding:
- Check if the keyboard is connected properly.

- Try resetting the keyboard by turning it off and back on.
- Ensure the battery is charged.

3. RGB Lighting Issues:
- Make sure the lighting settings are configured correctly in the software.
- Restart the keyboard to reset the lighting effects.

Advanced Features

Software Integration

The Nuphy Air 75 can be enhanced with dedicated software, which allows users to:

- Customize key functions and macros.
- Adjust the lighting settings and effects.
- Update firmware for improved performance.

To download the software, visit the official Nuphy website and follow the installation instructions.

Multi-Device Functionality

One of the standout features of the Nuphy Air 75 is its ability to connect to multiple devices. You can switch between three devices seamlessly.

- To switch devices, simply press the "Fn" key along with the corresponding Bluetooth key (1, 2, or 3).

This feature is particularly useful for users who work across multiple devices, such as a laptop and a tablet.

Conclusion

The Nuphy Air 75 is a versatile mechanical keyboard that combines aesthetics and functionality, making it an excellent choice for various users. With its low-profile design, customizable features, and multi-device connectivity, it caters to gamers, typists, and casual users alike. By following this user manual, you can maximize your experience with the Nuphy Air 75, ensuring that you enjoy all the benefits it has to offer.

Whether you are setting it up for the first time or exploring advanced features, the Nuphy Air 75 is designed to enhance your productivity and

enjoyment in every keystroke.
