 - Yeast (make a small well in the flour for the yeast)
3. Insert the Pan: Place the bread pan securely into the machine.

Selecting the Program

1. Choose a Program: Press the menu button to select the appropriate program for your bread type (e.g., "Basic" for standard white bread).
2. Select Crust Preference: Adjust the crust setting as desired (light, medium, or dark).
3. Set Timer (Optional): If you want to delay the baking time, set the timer now.

Start Baking

1. Begin the Process: Press the start button to begin the baking process.
2. Monitor the Progress: Use the viewing window to check the dough's consistency and rising.

Cleaning and Maintenance

Maintaining your Pohl Schmitt bread maker is crucial for its longevity and performance.

Cleaning the Bread Maker

1. Unplug the Machine: Always ensure the bread maker is unplugged before cleaning.
2. Remove the Bread Pan: Take out the bread pan and kneading blade. Wash them with warm soapy water or place them in the dishwasher if they are dishwasher safe.
3. Wipe the Exterior: Use a damp cloth to clean the exterior of the machine. Avoid using abrasive cleaners.
4. Dry Thoroughly: Ensure all components are completely dry before reassembling.

Storage Tips

- Store the bread maker in a cool, dry place when not in use.
- Keep the power cord tidy to prevent damage.

Troubleshooting Common Issues

Even the best bread makers may encounter some issues. Here are some common problems and their solutions:

- **Problem:** Bread is too dense.
 - **Solution:** Ensure you are using the correct type of flour and that your yeast is fresh.
- **Problem:** Bread does not rise.
 - **Solution:** Check the expiration date on your yeast and ensure the liquid temperature is warm but not hot.
- **Problem:** Crust is too dark.

- **Solution:** Adjust the crust control setting to a lighter option.
