Turn flashcard practice into a game to make learning fun. For instance, you can create a matching game where children match sound cards with corresponding picture cards or engage in a memory game using word cards.

3. Incorporate Movement

To keep children engaged, incorporate physical activity with flashcards. For example, spread the cards out and have children hop to the correct card when you call out a sound or word. This approach combines learning with movement, which can enhance memory retention.

Flashcards can be used not only for individual practice but also in groups. Utilize them during guided reading sessions, literacy centers, or even as part of a whole class activity to reinforce learning collectively.
