Getting Started with Roomba i3

Unboxing Your Roomba i3

When you first unbox your Roomba i3, make sure you have all the necessary components:

1. Roomba i3 robot vacuum
2. Home base charging station
3. Power adapter
4. Virtual wall barriers (if included)
5. User manual and quick start guide

Carefully remove the vacuum and accessories from the packaging, ensuring you keep everything intact.

Charging Your Roomba i3

To prepare your Roomba i3 for its first cleaning session, follow these steps:

1. Place the home base charging station on a flat, dry surface against a wall, leaving at least one foot of clearance on both sides and two feet in front.
2. Plug the power adapter into the wall and connect it to the home base.
3. Position the Roomba i3 on the home base, ensuring the charging contacts are aligned.
4. Allow the Roomba to charge for at least 3 hours before the initial use.

Setting Up Your Roomba i3

Connecting to the iRobot Home App

To enhance your cleaning experience, download the iRobot Home app from the App Store or Google Play. Follow these steps to connect your Roomba i3 to the app:

1. Open the iRobot Home app and create an account or log in.

2. Turn on your Roomba i3 by pressing the "CLEAN" button.
3. Follow the app's prompts to connect your Roomba to your Wi-Fi network.
4. Once connected, you can start customizing your cleaning preferences.

Scheduling Cleanings

With the iRobot Home app, you can easily schedule cleanings:

1. Open the app and select your Roomba i3.
2. Tap on "Schedule" and choose the desired days and times for cleaning.
3. Confirm your schedule, and your Roomba will automatically start cleaning at the designated times.

Using Your Roomba i3

Basic Operations

Operating the Roomba i3 is straightforward. Use the following buttons on the device:

- CLEAN: Starts the cleaning cycle.
- DOCK: Sends the Roomba back to the charging station.
- SPOT: Initiates a spot cleaning in a specific area.
- POWER: Turns the Roomba on or off.

Understanding Cleaning Modes

The Roomba i3 features different cleaning modes to suit your needs:

1. Auto Mode: The Roomba automatically adjusts its cleaning path based on the room's layout.
2. Spot Cleaning Mode: This mode is ideal for cleaning small, concentrated areas.
3. Edge Cleaning: The Roomba effectively cleans along walls and corners.

Maintaining Your Roomba i3

Regular Maintenance Tasks

To keep your Roomba i3 in optimal condition, perform the following maintenance tasks regularly:

1. Empty the Dustbin: After each cleaning session, empty the dustbin to ensure maximum suction power.
2. Clean the Filter: Wash the filter under running water every month, allowing it to dry

completely before reinserting it.

3. Check the Brushes: Remove hair and debris from the multi-surface rubber brushes every couple of weeks to avoid tangling.

4. Wipe the Sensors: Use a soft cloth to clean the cliff sensors and dirt detection sensors regularly.

Replacing Parts

Over time, certain parts of your Roomba i3 may need replacement. Here's a list of parts you may need to replace periodically:

- Filter: Replace every 2-3 months.
- Side Brush: Replace every 3-6 months.
- Rubber Brushes: Replace every 6-12 months, depending on usage.
- Battery: Replace if you notice a significant decrease in runtime.

Troubleshooting Common Issues

Common Error Messages

If you encounter any issues with your Roomba i3, check for the following common error messages:

- "Clean Base" Error: This indicates that your Roomba cannot find the charging station. Ensure it's placed correctly and that the contacts are clean.
- "Bin Full" Error: This message appears when the dustbin is full. Empty the dustbin and check the filter.
- "Brushes Stuck" Error: This indicates that the brushes are tangled with hair or debris. Clean the brushes to resolve the issue.

Resetting Your Roomba i3

If you experience persistent problems, you may need to reset your Roomba:

1. Press and hold the "CLEAN" button for about 10 seconds until the light ring around the "CLEAN" button turns white.
2. Release the button, and your Roomba will reboot.

Advanced Features of Roomba i3

Smart Navigation and Mapping

The Roomba i3 is equipped with smart navigation technology that allows it to map your home efficiently. The iAdapt 3.0 Navigation system helps the Roomba navigate around furniture and obstacles, ensuring a thorough clean without getting stuck.
